for all Headaches and Nervousness.

## Beef Peptonoids

IN POWDERED OR LIQUID form—concentrated  
beef, milk and gluten digested.  
Invaluable in all cases of Disordered Nutri-  
tion.

# HEDS

Thare is a hole lot of Kinds  
of heds. red-heds, wooden-heds, flat  
heds, soft-heds, big-heds, fool-in-the-  
heds, cabbidge-heds, levil-heds, bustlid-heds, lite-  
heds, bull-heds, bawled-heds, and so

4th. Pa he's got one. Its bawled.

And so has Ma. Ma she's long-heded  
and Pa he's bull-heded but I'm red-  
heded and levil too. But our cat  
has got wiskers on her hed  
which is on the uther end whare  
her tail aint but whare her mouth is.

W. B. Gaskins

W. B. Gaskins

And a rivers mouth is not whare  
its hed is, But a Bull-dogs is you  
bet and a snaix hed is flat on the  
ground with eyes on the corners & fangz.

A army is got a hed too but a  
idiot aint got none. The smart

end of a boy is his hed except  
when he gits spanked but the smart

end of a bee is not thare, o No, It

is at the South end of his body  
frum his hed. But Pa he had

a carbungle on his

neck and he called it a grate fambly  
gathering when it come to a hed, but

you cant tell if Ma or Pa is the hed  
of our fambly for both claims it.

And a mud turkle can swal-  
ler  
his hed but a tode cant

but a frogs legs is better then

his hed for eating. Jackasses

heds is to hold thare eers on but

horses heds is to steer them with and eat

oats but if a cows hed

wouldnt work she couldnt

eat grass and give

milk and the milk-

man would make the pumps suffer

you bet. But cats heds is rat

traps. A giraft is stuck up and

hi-heded with a goar  
throat and a angle  
worm has got a tale  
at both ends and no hed  
but he ketches suckers all the same.

Peepel dont nead cows anyhow  
only for milk for a goats hed and

a coons hed is both strong butter. Heds  
is to kepe brains in but boys

heds is to git coamed all the time  
when they dont nead it. It

dont make no differants what

shaip a mans hed is his face  
likes his hed. Faices and

heds is vary mutch atatched to each uth<sup>r</sup>  
in fack<sup>t</sup> they are stuck on each uth<sup>r</sup>. Most  
heds has ears and hairs stuck on them,  
too, only bawled heds dont. A bawled hed  
is like a goos egg without no wiskers.

But thare is a lot more kind of heds  
-hed-long, hed-first,  
hed or tale, hed over  
heels, hedquarters,  
hed-cheese, and

hed-ake, Hed or tale is whare you flip a  
cent and git stuck. it is called gambilling. Hed  
-first is where you tumble to sumthing and dont  
land onto your feet. Hed-quarters sounds like  
money but it is only a place to hang  
out. Hed-cheese

is the kind  
what  
cant  
walk

alone because  
its dead and has got  
a bad breth. But hed-ake is when littul de-  
vils is inside your hed pushing your eyes out  
from behint, hammering on your tempils and

trying to raize your roof. They  
say if a pursun didnt have  
no stummick nor nurves  
he wouldnt have no hed-ake

but if he didnt have no hed, he  
couldnt have none eether, only

like **M**a's, which is frum wurring and nurvis  
strains. Pa he says if a feller has got a hed,  
he will git ahed in this world. but I dont want  
no hed like he gits on him when he goes out

with the boys. **M**a she says  
2 heds is bettern I but

**P**op dont think so next  
morning after he's been to

the club. Them heds ust to almost  
kill him. But now they dont. He's  
gitting cute in his old aige. He  
takes Fosfo Kaffein and it nox  
the sox off of his hed-ake. It's grate  
stuff. It kin cure any kind of hed but ded-hed.  
Here's the labil off of Pa's bottel. You just try it.

# PHOSPHO-CAFFEIN COMP.

(GRANULAR EFFERVESCENT)

FORMULA - for each dessertspoonful:

Caffein.  
Acidi Phosphorici aa. grain 55.  
Antipyrin.  
Ext. Apit. Gray. dulc. (Celery) aa. grain j  
Sodium Bromide. grains. v.

PRICE ONE DOLLAR

THE  
Arlington Chemical Co.,

YONKERS, N.Y.

THE SATISFACTORY RESULTS PRODUCED BY  
PHOSPHO-CAFFEIN COMP. IN HEADACHES, NEURAL-  
GIA, INSOMNIA, NEURASTHENIA, AND GENERAL NERVOUS  
IRITABILITY, ARE NOT DUE TO ANY ONE INGREDIENT. BUT TO  
THE HAPPY EFFECT OF THE COMBINATION. A THOROUGH SERIES  
COMPARATIVE TESTS HAVE DEMONSTRATED THE SUPERIORITY  
THE ABOVE FORMULA OVER ANY OTHER IN THE SEDATIVES  
THE USUALLY UNPLEASANT AFTER-EFFECTS OF THE SEDATIVES  
ARE FULLY OVERCOME BY THE RECONSTRUCTIVE PROP-  
ERTIES OF THE OTHER INGREDIENTS, LEAVING THE  
URINARY SYSTEM IN A NORMAL

DOSE.  
FOR AN ADULT, ONE TO TWO HEAPING OF  
TEASPOONFULS IN A HALF TUMBLER. REPEAT  
WATER. CHILDREN IN PROPORTION OF FIFTEEN  
THE DOSE ONCE AT EXPIRATION OF FIFTEEN  
MINUTES, AND AGAIN IN HALF HOUR IF RE-  
QUIRED. DRINK WHEN EFFERVESCENCE  
NEARLY CEASES.

# Phospho-Caffein Compound,

## A BRAIN AND NERVE SEDATIVE.

The satisfactory results produced by Phospho-Caffein Comp. in HEADACHES, NEURALGIA, SLEEPLESSNESS and GENERAL NERVOUS IRRITABILITY, are not due to any one ingredient, but to the happy effect of the combination.

The usually unpleasant after effects of the sedatives are fully overcome by the reconstructive properties of the other ingredients, leaving the brain and nervous system in a normal condition.

Dissolved in cold water, PHOSPHO-CAFFEIN Comp. forms an effervescing, refreshing drink.

**AN EFFECTIVE CURE FOR HEADACHE.**

**A NERVOUS TONIC FOR FATIGUE.**

**A RELIEF FOR NERVOUS "WEAR AND TEAR."**

Dose :—One to two heaping teaspoonfuls in a half tumbler of water. Repeat the dose once at the expiration of fifteen minutes, and again in half an hour if required. Drink while effervescing.

Put up in  
25 ct., 50 ct. and  
\$1.00 bottles.
